

PATIENTS SELF-PAYING OR WITH NON-PARTICIPATING PLAN FINANCIAL POLICY

Carroll County Nephrology, PC is committed to providing necessary medical care to all patients regardless of their ability to pay. This policy establishes guidelines and procedures for ensuring that a patient or any Responsible Party receives financial assistance for all treatment provided by Carroll County Nephrology, PC.

The following policy for point-of-service collection from patients with a self-pay status or with a non-participating plan has been developed. Patients must pay the balance in full at the time of check-in or as has been agreed upon by the office manager and patient.

For self-paying patients, we will extend a 60% discount (Medicare rate) from the original charges if the patient pays for services at the time services are rendered.
